

## Go solar and reduce your carbon footprint at no cost to you!

- CORENA gives interest-free loans to pay for solar installations and energy efficiency measures.
- You repay the loan just out of resultant savings on power bills—the project pays for itself!
- Once the loan is repaid (3-7 years), you'll reap the benefits of lower operating costs for years to come.

## Who is eligible for a Quick Win community solar project?

Please apply for a Quick Win project for your premises if you are a non-profit community-serving organisation and:

- Your premises are used during the day at least 5 days/week
- You own or have secure long-term use of your premises
- You have a suitable roof for solar PV or solar hot water, or you want to improve your energy efficiency

### What is CORENA?

CORENA is a non-profit organisation run by volunteers. Our projects are funded by donations from people all over Australia who want to help reduce carbon emissions for the common good. All loan repayments from completed Quick Win projects go straight into helping fund subsequent projects for other non-profit organisations.
