

Reduce your carbon footprint at no cost to you!

- CORENA gives interest-free loans to pay for solar PV, energy efficiency, replacing gas, or for EVs.
- You repay the loan just out of resultant savings on power/fuel bills—the project pays for itself!
- Once the loan is repaid (3-7 years), you'll reap the benefits of lower operating costs for years to come.

Who is eligible for a Quick Win climate project?

Please apply for a project loan if you are a non-profit or other organisation that benefits the community and:

- Your premises/vehicles have regular high usage
- You own or have secure long-term use of your premises
- You have a suitable roof for solar PV, have high gas or vehicle usage, or want to improve energy efficiency

What is CORENA?

CORENA is a non-profit organisation run by volunteers. Our projects are funded by donations from people all over Australia who want to help reduce carbon emissions for the common good. All loan repayments from completed Quick Win climate projects go straight into helping fund subsequent projects for other organisations.
